KÄRCHER

KD-300: General Purpose Liquid Degreaser

KD-300 is a highly concentrated, non-caustic degreaser ideal for cleaning and removing oil and grease from vehicles and equipment in many applications.

Based on its foaming properties, KD-300 works great with cold water pressure washers. Its non-caustic properties make it safe on fine automotive finishes.

KD-300 is especially effective in removing hard-to-clean hydrocarbon-based deposits, such as baked-on carbon, caked-on axle grease and even asphalt or tar from heavy equipment, trucks, floors and walls.

KD-300 is biodegradable and formulated to pass through a pressure washer without damaging the high-pressure pump.

DIRECTIONS FOR USE:

For general use, mix with water at a 150:1 dilution rate. Adjust dilution depending on severity of cleaning situation. Pre-treat stubborn areas with a concentrated solution. Less detergent is needed when applied with a hot water pressure washer.

To Apply: Spray diluted solution on surface and allow to penetrate, but not dry. Apply detergent from the bottom up and rinse from the top down. Always read the Material Safety Data Sheet.

- **Deep Cleaning:** Butyl-based for deep penetration
- **Safe to Use:** Non-caustic and biodegradable
- **Versatile:** Works in hard and soft water; compatible with all surfaces
- **Fast Acting:** Cuts grease, oil, carbon
- **Restorative:** Has additives for restoring a surface

TECHNICAL DATA
Specific Gravity: 1.09
Boiling Point: >212°F
pH (5% Solution): 11.7
Vapor Pressure: 23mm/hg@70°F
Vapor Density (Air=1): 1.2
Solubility in Water: Soluble
Reactivity in Water: None
VOC Content: 28 grams
Melting Point: 32°F
Foam Level: 250 ml
Total Alkalinity: 1.5 - 1.8 ml
Freeze Thaw Stable: Yes
Hard Water Stable: Yes
Insolubles: None
