

## KD-260: Heavy-Duty Vehicle Cleaner with Wax

**KD-260** is a highly concentrated vehicle cleaner that produces rich suds to increase dwell time and deep clean any vehicle surface.

This special formula is highly effective in removing road film and grime, yet is safe enough for use on polished aluminum.

The wax additive gives KD-260 the extra performance feature of producing an attractive finish and shine for your vehicle. It also helps prevent dirt from adhering to the surface and reduces water spotting.

KD-260 is biodegradable and contains Kärcher's exclusive pump and coil protection formula. It is easy to rinse and works well with cold water.

### DIRECTIONS FOR USE:

For general use, mix with water at a 150:1 dilution rate. Adjust dilution depending on severity of cleaning situation. Pre-treat stubborn areas with a concentrated solution. Less detergent is needed when applied with a hot water pressure washer.

**To Apply:** Spray diluted solution onto surface and allow time to penetrate, but not dry. Apply detergent from bottom up and rinse from top down. Always read the Material Safety Data Sheet.
